Service Manager Administration Training

Course Overview

Ivanti Service Manager Administration Training is a 3-day training course covering topics for the administrative functions within the Ivanti Service Manager product. Delivered online this interactive instructor led session provides all the knowledge and skills to perform the day-to-day tasks of the Service Manager Administrator.

Upon completion, you will have practiced the necessary skills to manage and administer your Service Manager installation.

Course Objectives

By combining live online instructor-led training with scenario based hands-on exercises, students are empowered with the practical knowledge and skills needed to effectively administer Service Manager. You will learn:

- Basic concepts around Service Manager and understanding the analyst interface
- Configuration and management of key components, including:
 - Dashboards
 - Searching and Reporting
 - Workflows
 - Service Level Management and Escalations
 - Templates and Quick Actions
 - Self Service and Self Service Mobile
 - Request Offerings and Service Catalog

This course contains the subject matter to prepare candidates for the ivanti *Certified Associate for Service Manager* exam.

Course Duration

3 days

Course Pricing

US: \$2,295 US

Delivery Method

This class is offered in an instructor-led online format. Students will apply concepts learned through the use of a SaaS lab environment. You only require access to the Internet for the training.

Recommended Prerequisites

An understanding of fundamental service management tasks and familiarization with the Ivanti Service Management user interface is helpful but not required.

Audience

This accelerated course is intended for:

- Individuals responsible for administering and configuring the Ivanti Service Management environment
- Individuals wishing to obtain the Ivanti Service Management Associate Certification.
- Decision Makers responsible for contributing to or participating in the implementation of the Service Management environment
- Channel Partners and System Integrators with little or no experience administering Ivanti Service Management

Registration Information

You may register online at <http://training.ivanti.com>. Contact us at training@ivanti.com for more information.

Certification

The Ivanti Certified Associate for Service Manager exam measures your level of knowledge and skill to configure, administer, troubleshoot and maintain Ivanti Service Manager. In order to pass the exam, candidates should be proficient with all of the components.

Preparation

In preparing for the exams, candidates should attend both of these courses:

- ILT-ISMA-1701 Service Manager Administration Training
- ILT-ISMC-1701 Service Manager Configuration Training

50% of the exam questions can be answered from the training Student and Solutions Guides. The remaining 50% will come from practical hands-on experience with the Service Manager product. Successful candidates will have:

- Participated in the course's lectures and discussions
- Performed and practiced the hands-on exercises
- Reviewed and studied the Student and Solutions Guides

Benefits of Becoming Certified

Ivanti is one of the leading providers of systems administration technology for enterprise organizations. Becoming an Ivanti Certified Associate validates your knowledge and skill to administer, manage and maintain a secure tailored Service Management implementation improving your organization's user productivity.

By meeting the standards of an Ivanti technical certification program, you demonstrate that you are prepared to take on Ivanti projects.
